

Fisher Funds KiwiSaver Scheme

Product Disclosure Statement

Issued by Fisher Funds Management Limited
6 November 2023

This is a replacement Product Disclosure Statement (PDS) which replaces the PDS dated 30 June 2023.

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on companiesoffice.govt.nz/disclose. Fisher Funds Management Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial advice provider to help you to make an investment decision.

1. Key information summary

What is this?

The Fisher Funds KiwiSaver Scheme (Fisher Funds KiwiSaver¹) is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Fisher Funds Management Limited ('Fisher Funds', 'we' or 'us') will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Fisher Funds and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

Fisher Funds KiwiSaver has two funds to invest in. There are four investment options summarised below, or you can choose your own mix of the two funds. More information about the investment target and strategy for each investment option is provided in Section 3.

Investment option	Description of the investment option and its investment objective	Risk indicator	Estimated annual fund charges (% of net asset value)

1. The term 'Fisher Funds KiwiSaver' is an abbreviation for 'the Fisher Funds KiwiSaver Scheme' and readers should view those terms interchangeably.

GlidePath

Fisher Funds offers clients the GlidePath service which automatically invests your savings in one or a mix of both funds according to your age. Currently, until you are 46 you are invested in the Growth Fund. Every year from age 46 to 86, we adjust how your investment balance and future contributions are invested between the funds, so you can

get on with living your life. From age 86 onwards you will be invested in the Conservative Fund. You have freedom to opt in to, or out of, GlidePath at any time. Below is an example of how your savings would be invested at a range of ages if you take up GlidePath.

Age	How your savings are invested	Risk indicator	Estimated annual fund charges (% of net asset value)

There's no extra charge for GlidePath. The annual fund charges for the relevant fund(s) apply.

See Section 4 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at ipq.fisherfunds.co.nz/ffks.

Who manages Fisher Funds KiwiSaver?

Fisher Funds Management Limited is the manager of Fisher Funds KiwiSaver. See Section 7 for more information about us.

How can you get your money out?

KiwiSaver is a long term investment, designed to help you save for your retirement. It's not a savings account, where you earn interest and can access your money when you like. In most cases, while you can look at it, watch it grow and change how it's invested, you can't withdraw until you reach the age of 65.

In some cases, like if you buy your first home, suffer a serious illness or significant financial hardship, die, or permanently emigrate to somewhere other than Australia, you may be able to cash in some or all of your investment early. See Section 2 for more information.

How will your investment be taxed?

Fisher Funds KiwiSaver is a Portfolio Investment Entity (PIE). The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (PIR). This can be 10.5%, 17.5% or 28%. See Section 6 of the PDS ('what taxes will you pay?') on page 14 for more information.

Where can you find more key information?

Fisher Funds is required to publish quarterly updates for each investment option. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at fisherfunds.co.nz/resources. The manager will also give you copies of those documents on request.

2. How does this investment work?

Fisher Funds KiwiSaver is a long term investment plan aimed at helping you save for your retirement.

What are the benefits?

Joining KiwiSaver and making regular contributions is a smart choice because:

- **It's easy.** Your employer will automatically take contributions from your pay on your behalf if you're working. If you're self-employed, or not working, you can set up a direct debit or an automatic payment so your savings will happen regularly. You also know exactly what's happening with your nest egg with instant online access to your investment information.
- **Bonus savings.** Your regular contributions aren't the only additions to your savings. The Government also contributes up to \$521.43 per year, and if you're working and contributing from your salary, your employer will contribute at least 3% of your salary or wage*.
- We offer our Fisher Funds KiwiSaver clients a **choice** of two funds and a balanced strategy (that's a mix of the two funds) to invest in. We have a team of KiwiSaver experts ready and waiting to help you make the best decisions; matching your saving goals to your needs.
- **No fuss.** We make investing even easier with GlidePath, our automatic investment service which adjusts how your savings are invested depending on your age (our set and forget option).
- **Flexibility.** KiwiSaver can help you to save for your first home and offers great Government bonuses if you qualify.

* As long as you are over 18 and not entitled to make a retirement withdrawal.

How does it work?

When you join Fisher Funds KiwiSaver you'll be asked to choose a fund or mix of funds to invest in. Money you invest is used to buy units in the fund or funds that you've chosen.

- Each unit you buy will have a price calculated each business day based on the value of the fund's assets at the time.
- Changes in the value of the fund's assets (up or down) are reflected in the unit price.

Fisher Funds KiwiSaver is a trust governed by a Governing Document between Fisher Funds and Trustees Executors Limited ('the Supervisor'). Your investments are held by a custodian appointed by the Supervisor, who is independent from Fisher Funds. Each fund is accounted for separately so assets in one fund can't be used to meet the liabilities of another.

There is no Crown guarantee in respect of any KiwiSaver scheme or investment product of a KiwiSaver scheme.

Responsible investment

Responsible investment, including environmental, social, and governance considerations, is taken into account in the investment policies and procedures of the scheme as at the date of this PDS. You can obtain an explanation of the extent to which responsible investment is taken into account in those policies and procedures at fisherfunds.co.nz/responsible-investing.

Joining the scheme

It's easy to join Fisher Funds KiwiSaver. If you're new to KiwiSaver it's open to most people if you're:

- living or normally living in New Zealand; and
- a New Zealand citizen (or are entitled to live in New Zealand indefinitely).

You can also apply to join if you transfer from another KiwiSaver scheme.

We look forward to welcoming you. You can join online at applications.fisherfunds.co.nz/kiwisaver or fill in the application form at the back of this document.

If you have been enrolled in Fisher Funds KiwiSaver because it is your employer's preferred KiwiSaver scheme you'll be invested according to the Balanced Strategy, however at any time you can choose your own investment option. You have the choice to opt out of KiwiSaver between 14 and 55 days after you started your new employment.

Making investments

Making regular contributions to your investment will help you reach your financial goals. With KiwiSaver you may also get extra help with your retirement savings. Both the Government and your employer can contribute to your investment. Below we explain the three ways to build up your Fisher Funds KiwiSaver nest egg.

1. You contribute

If you're a salary or wage earner

- You'll need to make regular contributions from your pay.
- The minimum amount is 3% of your before tax salary or wages, or you can choose 4%, 6%, 8% or 10%.
- You're in control, so at any time you can change your contribution rate to one of the rates above, or after a year take a savings suspension, where you stop making contributions for a period of up to 12 months (you can apply for another savings suspension when your current one ends).
- Your employer will automatically deduct your contributions and send them to us via Inland Revenue.

If you're self-employed or not employed

- You can set up regular payments via direct debit or automatic payment which can be any amount you wish.

All investors can make voluntary lump sum or regular payments into their Fisher Funds KiwiSaver account.

2. Your employer contributes

A great benefit of being a KiwiSaver member is that, if you're contributing through your salary or wages, your employer is also required to make regular contributions to your KiwiSaver. They'll contribute a minimum of 3% of your before tax salary or wages (or more — check these details with your employer) if,

- you are between the ages of 18 and 65²; and
- you're not on a savings suspension and are contributing.

Your employer deducts Employer Superannuation Contribution Tax from their contributions before they are applied to your KiwiSaver account.

3. The Government contributes

You may also receive a Government contribution of up to \$521.43 a year (50 cents for every \$1 you contribute up to a maximum of \$1,042.86) as long as you;

- are between the ages of 18 and 65²; and
- mainly live in New Zealand.

Withdrawing your investments

KiwiSaver is a long term investment plan, designed to help you invest for the lifestyle you'd like to enjoy in the future. In most cases you can't withdraw until you've reached the age of 65. In some cases, like when buying your first home, you may be able to cash in some or all, of your investment early. The table below explains some of the withdrawal options.

You will need to sign a statutory declaration that you do not intend to work again to qualify for access to your Australian savings.					

* The kick-start payment was a \$1000 tax-free Government contribution made to all KiwiSaver members who joined before 2pm, 21 May 2015.

You can also access your investment where any Act or court order requires a withdrawal.

We may suspend or defer the timing of withdrawals (including transfers and switches) in some circumstances. Further information on suspensions and deferrals is set out in the "Other Material Information" document at fisherfunds.co.nz/resources.

2. If you joined KiwiSaver (or a complying fund) before 1 July 2019, a 5 year minimum membership requirement applies if you were aged 60 or over when you joined. During the 5 year minimum membership period you are entitled to the Government contribution, and compulsory employer contributions if you are contributing from your wages or salary. Once you've reached the age of 65 you can opt out of this requirement and make a partial or full withdrawal, however if you do so you will forgo your entitlement to the Government contribution and compulsory employer contributions.

How to switch between funds

Fisher Funds KiwiSaver offers you the flexibility to switch between funds, change how much you invest in each fund, or opt in to, or out of our GlidePath service at any time with no switching fees. To do this log in to our online portal or complete a switch form at fisherfunds.co.nz.

Talk to one of our advisers or take our investor profile questionnaire at ipq.fisherfunds.co.nz/ffks before you make any decisions.

3. Description of your investment options

Fisher Funds KiwiSaver provides you with flexible investment options so you can choose what's right for you. One of the most important decisions you make when joining KiwiSaver is how you want to invest your savings. Many people don't know much about investment strategies and risk indicators and that's why we're here to help you.

We offer two main investment options which have been designed to make it easier for you to save for your retirement.

1 **Select or build your own investment mix**
Choose one of our two funds or the balanced strategy (detailed on the next pages) or build a mix of the funds to suit your financial goals.

2 **GlidePath**
Choose GlidePath, our service which automatically invests your savings in one or a mix of the two funds based on your age.

GlidePath may not be suitable for you if you plan to use your KiwiSaver account for your first home purchase.

To help make the investment jargon included in the following table a bit easier to understand, we've used the following terms:

Income assets — lower risk investments such as cash and fixed interest securities.

Growth assets — higher risk investments such as shares and property.

The funds can also hold derivatives (contracts that are valued based on the performance of other assets e.g. for currency hedging purposes), and alternative assets (such as investments in commodities), however there is no specific allocation to these investments.

The funds can hold assets either directly or indirectly through other funds.

Conservative Fund

Summary of investment objectives and strategy

Aims to provide stable returns over the long term by investing mainly in income assets with a modest allocation to growth assets.

Who is the fund suitable for?

A short term or naturally cautious investor:

- Looking to make a withdrawal in the short term
- Values lower volatility of returns over achieving potential higher returns

While this fund is designed to be conservative in nature, in times of heightened market volatility the value of your investment may go up or down.

Target investment mix

Income assets 72.5%	Cash and cash equivalents	14.5%
	New Zealand fixed interest	26%
	International fixed interest	32%
Growth assets 27.5%	Australasian equities	5.5%

Balanced Strategy*

Summary of investment objectives and strategy

Aims to provide a balance between stability of returns and growing your investment over the long term by investing in a mix of income and growth assets.

Automatically rebalanced each year to a target fund mix determined by us, within a range of 40% to 50% Conservative Fund and 50% to 60% Growth Fund while you remain invested only in the Balanced Strategy.

* As at the date of this PDS: 40% Conservative Fund, 60% Growth Fund

Who is the fund suitable for?

A medium to long term investor:

- Wants a balance between volatility of returns and achieving potential higher returns

Target investment mix

GlidePath

GlidePath takes the hassle out of investing. With GlidePath your savings are automatically invested in one or a mix of the Conservative Fund and the Growth Fund that changes based on your age. It's designed to reduce your investment risk as you get older. You can join GlidePath anytime and we will automatically adjust your investment mix every year from age 46 to 86 to deliver a smoother investing journey

over the long term. GlidePath really suits investors who want less fuss and are comfortable with their investment in funds changing over time based on their age.

Further information on GlidePath is set out in the "Other Material Information" document at fisherfunds.co.nz/resources.

Risk indicator

The aim and investment strategy for each fund can be found in the Fisher Funds KiwiSaver Statement of Investment Policy and Objectives (SIPO). We regularly review and update the SIPO (in consultation with the Supervisor). When changes are made we will communicate these to you in our annual report. Our current SIPO for Fisher Funds KiwiSaver is always available at companiesoffice.govt.nz/disclose or at fisherfunds.co.nz/kiwisaver.

Further information about the assets in the funds can be found in the fund updates at fisherfunds.co.nz/resources.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

Risk indicators for each fund and investment strategy can be found in Section 3.

Risk indicator

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or take our investor profile questionnaire at ipq.fisherfunds.co.nz/ffks.

Note that even the lowest category does not mean a risk-free investment.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 September 2023. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for each of the funds.

General investment risks

Some of the things that may cause a fund's value to move up and down, which affect the risk indicator, are:

- **Investment returns risk** — different types of investments have different risks and perform differently at different times. For example, the return on growth assets tends to go up and down more than the returns from income assets. This means short term fluctuations in the value of a fund are common, especially for funds that invest mostly in growth assets like shares.

- **Market risk** — investment market performance can be affected by economic conditions such as investor opinion, inflation, employment rates and interest rates (including negative interest rates). Political events, and environmental and technological issues also impact investment market performance.
- **Currency risk** — investments in foreign assets are bought and sold with foreign currency, and the funds may hold foreign currencies directly. The value of the foreign assets and currency can change (up or down) when there are movements in the exchange rate between the New Zealand dollar and the foreign currency.
- **Investment manager risk** — how we choose to allocate each fund's investments will affect that fund's returns. In particular, our investment style may result in our returns differing from any market index and from competing investments.
- **Credit risk** — the issuer of a security, an institution that we deposit funds with, or a third party that provides a guarantee for either may not honour their obligations, fail to complete transactions, or may become insolvent. If this occurs you may not receive the full amount of your investment in that fund.
- **Counterparty risk** — a party to an investment contract may not honour their obligations, or fail to complete a transaction, or may become insolvent. If this occurs in any of the investment contracts held by a fund, you may not receive the full amount of your investment in that fund.
- **Interest rate risk** — fixed interest investments may become more or less valuable depending on changes in interest rates. If market interest rates rise, existing fixed rate investments become less valuable because new fixed interest investments will pay the current, higher rate of interest, and vice versa when market interest rates fall. Interest rate risk is more applicable to funds that invest mostly in income assets like cash and fixed interest.
- **Liquidity risk** — low liquidity can affect the ability of the fund to make payments when needed (such as meeting withdrawal requests), or you may receive a lesser amount than expected if the assets have to be sold quickly and there are few buyers.

Further information on risks and the steps we take to reduce their impact on the funds' investments are set out in the "Other Material Information" document on companiesoffice.govt.nz/disclose.

5. What are the fees?

You will be charged fees for investing in Fisher Funds KiwiSaver. Fees are deducted from your investment and will reduce your returns. If Fisher Funds invests in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- **regular charges** (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term;

- **one-off fees** (for example, fees charged for investing or withdrawing from a fund or for other specific actions you take). Fisher Funds does not currently charge any one-off fees.

The table below details all Fisher Funds KiwiSaver fees. The annual fund charges are based on the fees and expenses from the 31 March 2023 audited financial statements. They are a reasonable estimate of the annual fund charges that are likely to be charged in the future.

Investment option	Fixed Management fees	Estimated Costs and expenses	Total estimated annual fund charges (% of net asset value)
Conservative Fund	0.85%	0.08%	0.93%
Balanced Strategy ³	0.91%	0.07%	0.98%
Growth Fund	0.95%	0.07%	1.02%
GlidePath, age 30 ⁴	0.95%	0.07%	1.02%
GlidePath, age 50 ⁴	0.94%	0.07%	1.01%
GlidePath, age 60 ⁴	0.89%	0.08%	0.97%
GlidePath, age 75 ⁴	0.86%	0.08%	0.94%

Description of above fees

Annual fund charges are made up of:

- The **management fee** charged by Fisher Funds for providing investment management services to the funds.
- **Costs and expenses** incurred by the funds for services such as accounting, custody, unit pricing, and audit, and include the Supervisor's fees.

The annual fund charges are paid from the funds, or the underlying funds they may invest in.

Individual action fees

There are no contribution, establishment, termination, or withdrawal fees charged. You may be charged a fee by your financial adviser.

Buy/sell spreads

Although under normal trading and market conditions we do not apply buy and sell spreads, we may choose to do so. You can find out if any buy or sell spreads have been applied at fisherfunds.co.nz/spread-pricing. Further information is set out in the "Other Material Information" document at fisherfunds.co.nz/resources.

Example of how fees apply to an investor

Sarah invests \$10,000 in the Growth Fund. The starting value of her investment is \$10,000. She is charged management and administration fees, which work out to about \$102 (1.02% of \$10,000). These fees might be more or less if her account balance has increased or decreased over the year.

Estimated total fees for the first year

Fund charges	\$102
--------------	-------

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the Growth Fund. If you are considering investing in other funds or investment options in the scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

Our fees may change or new fees may be added — we'll let you know beforehand if they do. If we do make any changes, we'll make sure they are within the rules for Fisher Funds KiwiSaver and notify those changes to the Supervisor.

Fisher Funds must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at fisherfunds.co.nz/kiwisaver.

3. The Management Fees and Costs and expenses of the Balanced Strategy are based on the mix of Conservative and Growth Funds throughout the year to 31 March 2023.

4. The GlidePath options shown above are a representation of the GlidePath life cycle. There is no extra charge for GlidePath. The annual fund charges for the underlying fund(s) apply.

6. What taxes will you pay?

Fisher Funds KiwiSaver is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR go to page 24.

If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell Fisher Funds your PIR when you invest or if your PIR changes. If you do not tell Fisher Funds, a default rate may be applied.

If the rate applied to your PIE income is lower than your correct PIR you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate applied to your PIE income is higher than your PIR any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you by Inland Revenue.

Give us a call, or check out fisherfunds.co.nz/kiwisaver for more information on KiwiSaver tax.

Section 5 – Contributions

If you are employed

If you are employed your regular contributions will be made by your employer.

- You must let your employer know the contribution rate you have elected (as a percentage of gross salary or wages).
- If you are joining KiwiSaver for the first time please let your employer know.

If you are transferring

If you are transferring from another KiwiSaver provider and are contributing via your employer, your contributions will be automatically redirected to Fisher Funds.

If you are not employed or self-employed

If you are not employed (unemployed, under 18 and not working, retired, etc) or self-employed you will invest directly with Fisher Funds.

To set up a one off or regular direct debit, please complete the Direct Debit Form on page 25 of the product disclosure statement.

Section 6 – Investment options

You can select our GlidePath service, choose from three investment strategies (an investment mix designed to suit a specific investor profile) or you can build your own investment strategy by choosing either a specific fund or a mix of both funds in the proportions you wish. For help with choosing an investment strategy, take our investor profile questionnaire at ipq.fisherfunds.co.nz/ffks. You can change your investment strategy at any time.

To select GlidePath tick the box below:

GlidePath

OR

To select one of our investment strategies, tick the relevant box below:

- Conservative strategy
(100% Conservative Fund)
- Balanced strategy * (As at the date of this PDS:
40% Conservative Fund; 60% Growth Fund)
- Growth strategy
(100% Growth Fund)

OR

To build your own investment strategy simply complete the table below:

Funds	% Contributions
Conservative Fund	%
Growth Fund	%
The total must equal 100%	100%

* Your investment in the Balanced Strategy is rebalanced annually to a target fund mix determined by us, within a range of 40% to 50% Conservative Fund and 50% to 60% Growth Fund while you remain invested only in the Balanced Strategy.

If you do not make any choice, your contributions will be invested according to the Balanced Strategy.

By signing this Application Form you acknowledge that:

1. choosing an investment strategy is solely your responsibility and neither Fisher Funds nor the Supervisor of the Fisher Funds KiwiSaver Scheme ('the Scheme') is to be regarded as representing or implying that any particular investment strategy is appropriate for your personal circumstances;
2. the product disclosure statement does not give financial advice and if you are unsure about choosing an investment strategy you can seek advice from a financial adviser;
3. you can change your investment strategy at any time.

Section 8 – Privacy statement

Your personal information may be used by Fisher Funds, TSB Bank Limited (distributor) and the Supervisor (and any of their respective related entities), and by service providers to Fisher Funds and the Supervisor (and their respective related entities) to provide services in relation to your investment and to promote to you other products and services. Such information, including your account information, may be shared with and used by your financial adviser or the distributor through which you joined the Scheme (if applicable) and by the Financial Advice Provider associated with that adviser or distributor for the purpose of providing ongoing financial advice and/or services to you. Fisher Funds may also be required to disclose your information to the Financial Markets Authority, other regulatory authorities or on receipt of a court order.

The information you provide may also be used to electronically verify your identity and address (if necessary), and may be disclosed to third parties including government agencies for this purpose.

You have the right to access the information held by Fisher Funds and you may also request that it be corrected. You can do this by contacting us at enquiries@fisherfunds.co.nz or call us on 0508 347 437. If you contact us or we contact you, we may keep a record of that contact. We may also monitor and record calls you make to us and that we make to you. If you are concerned about a possible interference with your privacy, you should contact us by writing to The Privacy Officer, Fisher Funds Management Limited, Private Bag 93502, Auckland 0740 or email privacy@fisherfunds.co.nz. If your concerns are not resolved to your satisfaction, the matter can be referred to the Privacy Commissioner on enquiries@privacy.org.nz.

Section 9 – Declaration

- I have read the product disclosure statement (PDS) and agree to be bound by the terms and conditions of the PDS and Governing Document.
- I understand that the Scheme is a vehicle for long term investment and that the value of my investment is liable to fluctuations and may rise and fall from time to time.
- I understand the manner in which the fees will be deducted from my investment.
- I acknowledge that neither the Manager nor the Supervisor will be liable to me for any loss as a consequence of the investment direction given on this form or any later investment direction given in accordance with the Governing Document (and that none of the Manager, the Supervisor, the Crown, TSB Bank Limited or any other person guarantees the performance of the fund(s) I select). I meet the eligibility criteria for joining the Scheme as set out in Section 2 of the PDS.
- If I am transferring from another KiwiSaver scheme or registered scheme I authorise the Manager and Supervisor of the transferring scheme to provide to Fisher Funds and the Supervisor of the Scheme any of my personal information as necessary to complete the transfer of my account.
- I agree to the terms outlined above in relation to the privacy statement and the handling of my personal information.

Section 9 – Declaration (continued)

- I understand that the financial adviser or distributor through which my investment was made (if applicable) may be remunerated by the Manager for distributing the Scheme.
- I confirm that all of the information I have given in this application is true and correct.
- I will notify Fisher Funds immediately if there is any change in any information I have given in this application.
- If I am invested in the Balanced Strategy I authorise Fisher Funds to rebalance my target fund mix to within a range of 40% to 50% Conservative Fund and 50% to 60% Growth Fund on an annual basis.
- I understand that Fisher Funds is the issuer of the Scheme and that TSB Bank Limited is a distributor of the Scheme, and that an investment in the Scheme does not represent a deposit with, or other liability of TSB Bank Limited.

Signature of applicant (if 16 or older)

Date

Account holders under 18

If the applicant is 16 or 17, the applicant and one legal guardian or Oranga Tamariki guardian must co-sign. If the applicant is under 16 both the legal guardians or one Oranga Tamariki guardian must sign on behalf of the applicant. Legal guardians or the Oranga Tamariki guardian must provide identification in accordance with the requirements on page 18. In signing the Declaration you confirm that you are a legal guardian or Oranga Tamariki guardian of the applicant and that you accept the Declaration on behalf of the applicant.
